

Your trusted FinancialForce partner

FinancialForce Lightning Enablement

FinancialForce is requiring all customers to be Lightning enabled prior to upgrading to Spring '21.

Take advantage of Lightning-enablement, the future of FinancialForce.

What Is Involved?

The future of the Salesforce platform is Lightning Experience, and with Spring '21, FinancialForce will have fully adopted Lightning for all products.

For PSA customers, Fall '20 and Spring '21 upgrades replace VisualForce pages with Lightning Web Components. This delivers a greatly enhanced user experience, along with investment in change management.

Whatever the current state of your lightning enablement, we can help you prepare for the future!!

Lightning Enablement Service

CRM — Starting at \$9,000

PSA — Starting at \$6,750

FFA — Starting at \$4,500

Accelerated Value

Robust Lightning functionality is currently available in Fall '20. An investment in Lightning Enablement will unlock the full capabilities of the current release and ensure a smooth transition to all of the great features in Spring '21 and beyond.
